College campus is located in residential area, green belt including gardens, pathways and herbal garden has considerably reduced noise pollution in the campus.

The basic objective is to promote institutional quality enhancement and sustenance through the internalization of quality culture and institutionalization of the best practices. Gour Mahavidyalaya has partly adopted ICT enabled e-governance to ensure timely, efficient and progressive performance of academic, administrative and financial units. Many records are maintained in an electronic format. The College has installed different software for on line admission, salary and P.F. transfer, maintenance of accounts, and collection of fees. E-tender has been introduced. The Institution has provided at least one computer with internet connection to each department and also to the office staff. 64 teachers have been using ICT tools for teaching and learning. LIBSYS is being used for Library automation. INFLIBNET, E-books from Taylor and Franchise group and JSTOR are available. Internet: Faculty members, members of the non-teaching staff and students can access the internet facility. There are 14 points and 2 browsing centers. College website: www.gourmaha.org.in. Best Practices-2-One of the objectives is to inculcate a value system among the

Students. Our environmental ethics is to make the College campus more sustainable and ecofriendly. A Green campus is a place where environmental friendly practices and education combine to promote sustainable and ecofriendly practices in the campus. Green campus is holistic aiming to make environmental awareness and to act as an intrinsic part of the life and ethos of the Institute. Green campus endeavors to extend learning beyond the class room to develop responsible attitudes and commitment both at home, village and college campus or in the wider community. Many Gardens have been developed: (1). Flower Garden (No.1): 372"-922". (2). Flower Garden (No.2): 511"-517". (3). Flower Garden (No.3): 508"-119". (4). Flower Garden (No.4): 385"-415". (5). Flower Garden (No.5): 237"-294". (6). Garden of Medicinal plants: 669"-116". (7). Garden of Medicinal plants (No.2): 610"-1189". (8). Garden in front of Library. (9). EX-situ conservation garden (NO.1). (10). Herbarium (NO.1) (11). Arboretum. Rain water harvesting plant and Solar power energy plant have been established.

3. Basis of Green Audit and Stakeholders Consultation (a) Green Audit enables to enhance awareness levels on environment management and sustainability;

(b) Prepare an environment management plan and promote sustainability through efficient resource management resulting in cost reduction.

Step-1-Members of Eco- Club, Beautification Committee, N.S.S. Units and Outreach Programme Committee conducted Green Audit of Gour Mahavidyalaya in April, 2021 through online survey , personal interview and field observation.

Observation: It is observed that College building has 46 classrooms, well-equipped laboratories, and library. There is a small play ground. Good Daylight Design and Ventilation of Classrooms, laboratories, offices, library etc. are good. Rooms have high ceiling, wide doors and large windows. Ventilation in classrooms is facilitated by windows and fans. Air conditioners are used in offices, computer laboratories and computer server rooms. Exhaust fans are provided in washrooms. The Institution has facilities for alternate sources of energy. Water conservation facilities available in the Institution: 1. Rain water harvesting 2. Borewell /Open well recharge 3. Construction of tanks and bunds and (4) water distribution system in the campus. Workshop/Seminar: Special Lecture:: Gour
