2.5.1 Mechanism of internal assessment is transparent and robust in terms of frequency and mode

Response: We follow guidelines framed by University of GourBanga, Malda, for the internal assessment of the theory and lab based practical classes. In addition, the institute has carefully designed and implemented the parallel mechanism to ensure students preparedness. Complete transparency is maintained in all forms of internal evaluations. A comprehensive academic schedule is prepared well in advance and displayed in the web-site and notice board for student's consciousness which includes, dates of various internal examinations such as internal assessment, tutorial examination, test examinations, and practical examinations. The college conducts internal assessment examination (10 marks) and tutorial examination(8 marks) of each paper. Results are declared within one week. While setting the question paper all previous university exam papers are taken into consideration. After examination, the Subject handling faculty members evaluate their respective answer scripts and distributed evaluated answer scripts for discussion with students for upgradation and to maintain transparency in the evaluation. Students those who have obtained poor marks are coached well. Examination results are displayed on notice boards. Report of marks is maintained in an electronic format. In case of final examination, different Board of Studies, University of Gour Banga, Malda, set question papers. Sometimes external examiners, and sometimes internal examiners evaluate answer scripts. After final examination result is declared, if any examinee is not satisfied with his or her performance, he or she can apply to the Controller of Examination, University of GourBanga, Malda, for scrutiny or reassessment. The Institute uploads notice sent by the controller of examinations, University of Gour Banga. Students submit on line scrutiny/reassessment form within ten days from the date of publication of final result along with the requisite fees and relevant documents to the Controller of Examination, University of GourBanga through Principal of GourMahavidyalaya. External examiners are appointed by the Controller of Examinations, University of Gour Banga, for each subjects/papers to evaluate answer scripts .After re- assessment or scrutiny, the Controller of

Examinations, University of Gour Banga, informs the Principal and asks the students to submit earlier marks sheet and rectify mark sheet. The overall performance, attendance, feedback about the student is communicated to parents by mentor faculty members through Mobile. This enables the parents to be updated about their ward's performance and encourage their process at the same time. Therefore, the process of continuous internal assessment is carried out with complete transparency.

vidgasagan Traditional Modernization.

The process of traditional modernization is a complex one, involving the integration of modern scientific and technological knowledge with traditional cultural values and practices. This process is often characterized by a tension between the desire for progress and the need to preserve cultural identity.

In the context of India, traditional modernization has been a central theme of development policy. The government has sought to modernize the economy and society while maintaining the core values of Indian culture. This has led to the development of a unique Indian model of modernization, which is based on the principles of self-reliance, social justice, and environmental sustainability.

The process of traditional modernization is not without its challenges. One of the major challenges is the need to balance the interests of different social groups. While modernization can bring economic growth and social progress, it can also lead to the marginalization of certain groups and the erosion of traditional values.

Another challenge is the need to address the environmental impact of modernization. The rapid growth of the economy and the increasing demand for resources have led to significant environmental degradation. This has led to a growing awareness of the need for sustainable development, which takes into account the needs of future generations.

Despite these challenges, the process of traditional modernization remains a key priority for India. The government is committed to continuing to modernize the economy and society while preserving the rich cultural heritage of the country. This is a task that requires a balanced and thoughtful approach, one that recognizes the value of both tradition and modernity.

In conclusion, the process of traditional modernization is a complex and ongoing one. It requires a deep understanding of the cultural and social context of the country, as well as a commitment to the principles of self-reliance, social justice, and environmental sustainability. Only through a balanced and thoughtful approach can India achieve the goal of traditional modernization.

Nationalism of the traditional modernization.
