Sub: Proposal for the 2nd phase of the work of Solar Power Plant

Respected Sir,

As a part of the overall development including 'Green Energy Initiatives' of the Gour Mahavidyalaya the 1st phase of Setting up, Commissioning & Start-up of the Solar Power Plant already been completed within the stipulated time frame. Plant already started generating power according to the initial need as you know. Now, management of the college may focus on the 2nd phase of the work as per their Planning to complete the entire project work within the stipulated time frame.

Hence, I would like to discuss further on this front at your convenience.

I am also stating the cost proposal of 2nd phase of work that I had already discussed with management earlier.

Sl.No	Perticulars	Cost (Rs.)
1.	Supply, Erection/Installation, Testing& Commissioning of High End Solar PV Power Plant of 1.2 KW of Capacity With Sufficient/optimum Battery(Battery based on Latest Technology) Backup facility.	1,94,000 (One lakh ninety four thousand only)
2.	Separate Electrical Setup (Phasing, Switching, Wiring, Testing etc.) for Solar home lighting purpose.	18,000 (Eighteen thousand only)

Cost may vary up to 5-7% depending on any natural calamities or any unfavourable situation.
I look forward to hearing from you soon.

Thanks and Regards,
Raja Basu

Sub: Prayer for Installing Solar Energy Utilization System in the College Campus

Sir/Madam,

Gour Mahavidyalaya, situated on the north side of Mahananda River where N.H.34 passes through Mangalbari, Old Malda, started its journey in 5th day of September 1985 to cater to the needs of the pupil, mainly of the locality as well as those of this district in the field of higher education. The college authority has decided to make the college pollution-free green-college.

Presently, the college faces the problem of frequent interruption of electricity power supply which affects drastically the official works as well as different laboratory experiments and classroom teaching. Besides this, some areas of our campus face problem of lack of proper lighting from the late evening. This creates a threat to safety and security.

Under these circumstances, the college authority has decided to install the solar-energy utilization system in its campus in view of promoting the clean and green energy utilization and practices.

In concern with the above, I hereby provide the load capacity of the college and the suitable area for installation of solar panels on college roof for your consideration. However, I would request you to send an inspection team for accurate estimation of the same.

Waiting hear from you soon and heartfelt thanks in anticipation,

Sincerely yours,
Dr. Ashim Kumar Sarkar
Principal, Gour Mahavidyalaya
Principal
GOUR MAHAVIDYALAYA
Mangalbari, Malda.

Load capacity: 60 kW approx
Roof area: 560 m² or 6027.79 ft.² (approx)
